

TRAINING SESSIONS

INTERACTIVE READING & NOTETAKING is a *p-o-w-e-r-f-u-l* process for teaching AND learning!

In each hands-on session, participants move theory into practice as they dissect the **WHYS** and **HOW-TOS** behind the strategies! The process combines Cambourne's Model of Learning, Marzano's 9 instructional strategies, and the best reading strategies into a framework that explicitly and consistently shows students *how to learn!*

Interactive Reading & Notetaking is for *ALL* grade levels, *ALL* subject areas, and *ALL* students . . . preschool to college, special education to gifted! The process is based on 36 years of combined experience as elementary school teachers, middle school teachers, reading specialists, instructional specialists, administrator, and teachers-as-researchers!

We are determined no child or teacher will be left behind! Join us in our mission to revolutionize teaching AND learning!
